

# Construction Youth Trust

## LABC Charity Partner 2021

Inspiring and supporting young people into rewarding careers, is now more important than ever

\*\*\*\* young people reached over the past two years

\*\*\*\* young people engaged in our remote COVID-19 services in 2020

\*\*% of young people made a successful transition into employment or education

\*\*\* industry volunteers donated \*\*\* volunteer hours last year

### Construction Youth Trust

Construction Youth Trust work with young people across London and North Kent, supporting them to overcome barriers and achieve their full career potential by connecting them to employers and opportunities in the built environment sector.

Experiencing meaningful employer encounters at an early stage significantly increases a young person's future career prospects and reduces their chances of becoming unemployed.

**We need your help to attract a diverse new generation of young people to the sector.**

### Ways you and your networks can get involved:

- Provide industry volunteers to support sessions
- Facilitate a live site tour for groups of young people
- Offer work experience placements for young people
- Offer in kind support i.e. hosting a practical activity
- Let us know about your apprenticeship and employment opportunities

For more information about the Trust's work and how you can get involved please contact [charlotte.higgins@constructionyouth.org.uk](mailto:charlotte.higgins@constructionyouth.org.uk)
